## WORK EXPERIENCE

### Software Developer Pumpumpum

04/2022 - Present

Gurgaon

Achievements/Tasks

- Worked on the modular, single-page web application for [pumpumpum.com](https://pumpumpum.com) using Angular, incorporating responsive design principles using Tailwind and Bootstrap.
- Contributed to the development of the pumpumpum admin dashboard, creating numerous new modules from scratch to facilitate seamless operations and efficient data handling.
- Created a Blog Management System with Angular, integrating an intuitive dashboard for content uploading and dynamic website views for display.

### Software Developer Intern Equitrax Corporate Ventures

02/2022 - 03/2022

Gurgaon

Achievements/Tasks

- Developed and launched the organization's official website utilizing HTML, CSS, Bootstrap, and JavaScript. Successfully integrated modern design principles and responsive layouts to enhance user experience.
- In addition, initiated and completed a project focused on data visualization by harnessing the power of the Google Maps API and JavaScript. The project involved displaying intricate data sets on an interactive map interface.

## PERSONAL PROJECTS

### Disney Hotstar Clone - Link [↗](#)

- Developed a responsive web-based clone of Hotstar to demonstrate advanced UI/UX skills. The project includes a dynamic and interactive interface, mirroring the look and feel of the original platform. Features such as a multi-category content display, and smooth scrolling.
- Firebase is used for real-time data management and hosting. It handles backend operations like storing project details and images, making the app scalable and easy to maintain.

### Angular Dashboard - Link [↗](#)

- Developed a basic modular Angular dashboard with CRUD operations that can be seamlessly integrated into users list or any other list of items.
- The backend is powered by a JSON server, ensuring efficient data storage and retrieval.

### Contact Management App - Link [↗](#)

- Feature-rich CRUD application using Angular and Tailwind CSS for contact details management.
- The app allows users to CRUD contact information. It includes a recycle bin feature, providing the option to permanently delete or restore contacts.
- The app's responsive design ensures a seamless user experience across devices.
- The backend is powered by a JSON server, ensuring efficient data storage and retrieval.

## EDUCATION

### MCA

Quantum University, Roorkee

08/2020 - 06/2022

Roorkee

## CERTIFICATES

Diploma in Computer Applications by CSoft Computers.

6 months

PyDjango - Full stack Web Development.

6 months
